Thank you. I had a discussion with NYSDOH regarding Saint Gobain, and I have asked if they have an inventory of the private wells. NYSDOH indicated that they are currently working on such inventory and they can share with us at a later date.

Subject: FW: Hoosick falls

Hi Judith,

We do not have a complete list of private wells in the Village of Hoosick Falls. As noted below in the e-mail from Maryfran Wachunas, Public Health Director, while most are on municipal water, some private wells were sampled along with the municipal wells.

The Rich referenced in the e-mail is Rich Elder Director of Environmental Health for the County.

Thanks,

Kathy

Rich said that the State Dept of Health did some private well sampling. Most of the sampling results are from the municipal drinking wells for the village. We do not have a list of all private wells. Most of the village is served by public water.
